

Tremco Hosts Orientation Meeting For Kansas City Small Business Contractors

Please Join Us On July 8th To Learn About Tremco's
Small Business Strategic Alliance Program.

Tremco is pleased to announce that our Small Business Strategic Alliance Program has been enhanced to meet changing Federal directives and new commercial market opportunities. We'd like to share with you our program opportunities and learn more about your business at our upcoming Contractors Orientation Meeting on July 8th.

As a leading provider of roofing and building envelope products and services, Tremco is dedicated to the advancement of diverse business partners and seeks partnerships with qualified 8(a), Service Disabled Veteran, Veteran-Owned, Small Disadvantaged, HUBZone, MBE, CSB and Women-Owned contractors. Since 2001, Tremco has successfully subcontracted work to more than 500 small business contractors throughout the United States. Today, opportunities exist for contractors to serve as both prime and subcontractors under various NAICS codes.

Our Strategic Alliance Program offers qualified contractors professional business development assistance and technical training while helping our customers meet their diversity and small business procurement goals. We hope you can join in our discussion of small business opportunities within Greater Kansas City.

Hope to see you there!
